

## SUBSTANTIA INNOMINATA

"Substantia Innominata" is the 10" VINYL - series by Drone Records, presenting works inspired by or related to "the Unknown" around or within us. OUT NOW (Febr 2017):

### **SUB-24 • YANNICK DAUBY & HITOSHI KOJO** **- La Vie dans les Airs & dans les Eaux**

*"We were touching metal with our skin, with wood and with stones. We were navigating in the obscurity, under the earth. We were probing the water with our instruments. Almost like if we were trying to let some lifeforms emerging from the land." [Yannick Dauby]*

Drone Records is proud to present the first ever collaboration release of these two cosmopolitan sound artists from France and Japan (residing currently in Taiwan and Belgium), based on a variety of field recordings, 'concrete' material improvisations and personal additions done in different parts of the world.

We can hear mysterious (micro)-sounds that could come from minerals, stones, plants, or daily objects and instruments - opening up two soundscaping tracks full of wondrous elements, combining the 'concrete' with the sublime and the atmospheric... lost in the huge network of organic entities in the 'More-Than-Human World' around us.

10" vinyl on black vinyl and with full colour sleeve, lim. 300 copies.
