**FORMAT: FULL-LENGTH CD PLAYTIME: 58:50 min**

**FILED UNDER: DARK AMBIENT, SOUNDTRACKISH POST-INDUSTRIAL**

# raison d'être "Mise en Abyeme"

**DESCRIPTION:** Transgredient Records is very proud to release the newest studio-work by this well known Swedish ambient industrial project, continually re-newing the dark ambient genre since 1992. "Mise en Abyeme" is the first **raison d'être** studio album in over 4 years, following a very special "initiation concept" with an emphasis on the experience of sequential psychological states with cathartic effects - diving into the deepest regions of the subconscious in order to return with a fresh and 'empty' mind. All the previously beloved elements of **raison d'être**s music are here: spacious deep drones, touching sacral choirs, ritualistic sounds from gongs and bells and other awesome integrated field / object recordings - all impressively enhanced to reach a new level of masterful atmospheric composition. Moving from dramatic tension and threatening uproar to meditative beauty, this near hour long album reveals various changes and details, while always sounding monolithic (all of one piece), expressing almost unbearable sensations of melancholy, vastness and contemplation.

The idea behind this album, in the words of the artist: "*Mise en Abyeme* is an inner journey down to the most hidden and dark parts of the Self. 'Mise en Abyeme' literally means 'placed into the abyss' and conceptually the album contains ingredients from 'The Divine Comedy' by Dante or any similar stories/myths around the katabasis theme. Instead of being linked to religion, history or morality, it is purely a psychological and therapeutic trip to the underworld, investigating the subconscious. But even in the darkest and chaotic places in the depths, there are small shades of light, hope and understanding; one can be enlightened and purified upon returning to the conscious world."

## **TRACKLISTING :**

- 1. ABYSSOS**
- 2. INFERNOS**
- 3. KATHAROS**
- 4. AGRAPHOS**
